Don't Roll Down Your Windows for _____ days after installation.

days after installation.

dry time is determined by local weather conditions. During the dry time it is normal for a slight moisture-haze to appear although it will disappear. The soapy solution Seller used during your window film installation will take time to dry. The

PROPER MAINTENANCE TIPS

To extend the life of your GWF product please adhere to these maintenance tips.

Don't Clean Your New Window Film for

• For cleaning, a mild soapy water solution works best.

• When cleaning and drying the film, always use soft non abrasive materials.
